

Activity – Dementia Awareness Week posters

Promoting awareness and understanding of dementia is the aim of Dementia Awareness Week, an annual event that helps shed light on this condition. By creating posters, we can both inform and encourage people to learn more. Consider sharing some key facts about dementia to incorporate into these posters, allowing individuals to have a clearer grasp of the subject.

Remember to prominently feature the date of the awareness week and ponder on its ideal placement on the poster. Including a link to the website is crucial, sparking discussion about its significance and optimal placement.

Encourage the creation of a poster to spread the word about Dementia Awareness Week in school, equipped with the necessary dates, links, and two dementia facts.

Idea:

Some of these posters could be used in school to make others aware of Reminiscence Learning. They could also be put on the school website in order to reach a wider audience or all posters could be put to a class vote with the winning poster being submitted to Reminiscence Learning (via **office@reminiscencelearning.co.uk**) to display on their website.
